MANUFACTURING OF GASKETS FOR PLATE HEAT EXCHANGERS

**We improve,
You save**

LAYGO gaskets is a company dedicated to the manufacture of gaskets for plate heat exchangers.

After more than 25 years of experience and due to the technical capacity of our laboratory, we have developed our own formulations which allow us to make gaskets adapted to the requirements and to the technical specifications of our clients.

To obtain the best quality for You, we rely on a team of experts in the manufacture and processing of elastomers, as well as a laboratory completely equipped with the necessary tools for accurate measurement and tests.

MODELS

The Laygo™ gaskets are adaptable for all major heat exchanger manufacturers.

Alfa Laval
APV
Fischer
Gea
Junkers
Tranter
SWEP

Schmidt Bretten
Sondex
Pasilac
Reheat
Pierre Guerin
Vicarb
Stork, etc.

We are constantly increasing our range of gaskets, with the rapid evolution in the design of heat exchanger plates, and new models being introduced.

QUALITIES

We also offer and stock a comprehensive range of materials, see below:

NITRILE
EPDM
HYPALON
SILICONE
NEOPREN
BUTYL HT etc.

HIDROGENATED NITRILE
EPDM-HT
BUTYL RESIN CURED
FLUORELASTOMER—FKM A/B
FLUORELASTOMER—FKM G/GF

Our objective is to supply you with the correct specification of material to suit your particular application.

MANUFACTURING OF GASKETS FOR PLATE HEAT EXCHANGERS

LEAD TIME

We value especially the delivery times of your gaskets.
 We rely on systems of production based on the service to the client, and not in a saving of imaginary costs.
 We have sufficient stock of raw material and finished product in order that you receive your gaskets either exstock or on a short lead time.
And in addition you will experience SIGNIFICANT COST REDUCTIONS.
 If you might wish to realize annual programmings of supply in order to optimize your stop of maintenance, you will obtain of Laygo gaskets an excellent solution.

WORLDWIDE

Along the passed years , Laygo gaskets has experienced a constant and proportionate growth. Our company exports to more than 36 countries with distribution agreements. This point reaffirms the quality of our manufacturing.
 With a manufacturing capacity of more than 1.000.000 annual units, our gaskets are used by more than 15.000 clients, including large international centres of regasketing .

GUARANTEES

The Laygo™ gaskets have a one Year Warranty against any fault of manufacture.

Consult our general conditions of sale and guarantee.

Laygo gaskets SL is a ISO 9001 certified company as a manufacturer of gaskets for plate heat exchangers.

Process

Laygo gaskets

- Mould manufacturing
- Own formulations
- ISO 9001 Certified laboratory
- Co-operation with University
- New applications development
- 1 year warranty against any fault of manufacture
- FDA compliance
